OSCE AND OSPE

Objective Structural Practical examination is used to evaluate students' clinical skills. Students rotate through series of stations, each presenting a specific clinical scenario or tasks. Time limit for each station will be 1 minute. They are assessed based on their performance at each station according to predetermined criteria.

ROLE PLAY

DEPARTMENT OF ORTHODONTICS AND DENTOFACIAL ORTHOPAEDICS

EVENT: ROLE PLAY 2023-2024

THEME: orthodontic treatment bringing out the best smile

Year: Undergraduate students

Date: 11-10-23

Co-ordinator: Dr. Prasad Konda, Dr. Arshad Hussain

Moto: the impact of orthodontic treatment and importance of an orthodontist

Role play highlight:

The role play was about a girl named Munni who never smiled no matter how hard her close ones tried to make her smile. She was constantly getting bullied by her fellow-mates. This made her parents worry about her and her friends who cared for her, so, they decided to take her to an orthodontist who then gave her a beautiful smile that boosted self-confidence in her, and she started smiling again.

First Visit to Dental Clinic

Role play can be a highly effective method for stimulation learning. By embodying different roles, students actively engage with the topic, promoting deeper understanding and retention. It adds an interactive dimension to learning, making it impactful.

Students are divided into groups and allotted a topic on which they have to enact within a given period of time.
