DEPARTMENT OF ORAL MEDICINE AND RADIOLOGY TCC CENTRE:

You are specially assigned the duty of advising those with long term conditions on smoking cessation & the effects this can have on their conditions & treatment.

You are meeting 42-year-old woman admitted with an acute exacerbation of chronic pulmonary disease. She leads busy life, with an insurance job & a family of 3 children.

TASK

- Explain the effect of smoking on long term condition
- Increase the patient confidence in using treatment to quit smoking while in hospital
- Offer emotional & psychological support
- Suggest other methods to reduce stress

CANDIDATE ROLE PLAY CARD

Nurse setting: OMDR Tobacco cessation center

You are a nurse practitioner at **OMDR Tobacco cessation center** & run a support group for patients who wish to give up smoking. Your patient is a 40-year-old, who is new parent & has been smoking 20 cigarettes a day for 25 years

TASK

- Find out as much as possible about patients smoking habit quantity, products smoked, reason for wanting to quit, etc.
- Reassurance the patient that you will be able to help & offer suggestions of other pleasant things that could be introduced and looked forward to in the evening (Coiling a friend, good movies, delicious meals).
- Suggest products to support giving up smoking (NRT tablets-reduce cravings, block rewarding effects of cigarettes; electronic cigarettes- satisfy cravings without the damaging effects of smoking)
- Recommend that you make a plan together. Help the patient identify triggers, rewards & benefits (e.g., more money, fewer health problems better for baby, smell nicer)
- Help fix a date to give up, prescribe the NRT & suggest the patient buys before the agreed quit date
- Agree to offer ongoing help & support
