INTERNAL ASSESSMENT POLICY

Al Badar Dental college has always considered teaching and learning evaluation as a keystone for its development. For the academic process to be constructive, the college has always put timely and appropriate efforts to create an environment that is more academic and encouraging. Since the beginning, the college is providing an academic annual calendar that covers the events around the year such as commencement of academic session, curricular and extra-curricular activities, conductance of examination, scheduling of postings, vacations, preparatory leaves, and other college activities. , Which is to be strictly followed throughout the year.

This prior planning of the schedule for the whole academic sessions allows students to stay focused and mold their academic session in a much better way. Also, for the faculty it is helpful in Syllabus completion and timely preparation of assignment to be handed over to the students.

The college follows a continuous internal evaluation system for the undergraduate students, given by the affiliated university/DCI. The evaluation may be in the form of written exams, viva voce, clinical/practical examinations.

Continuous internal assessment system

- Three internal assessments are conducted for the BDS students during each Academic year. The internal assessment examinations are conducted similar to the university examination. The dates of these examinations are incorporated in the academic calendar distributed to the students at the beginning of each academic year which provides the students adequate time to plan and prepare for the same.
- After the conduct of the internal examinations, the answer scripts are evaluated, which are then returned to the students to have an idea of their performance in the Exam. If they come across any doubts, clarification is given by providing a set standard format answer scripts which is been written by a subject expert. Any grievances related to Internal exam question paper like out of syllabus, repeated questions, the improper split of marks, marks missed, delay in the distribution of Question paper & Answer sheets are addressed by the incharge faculty and the Head of the department to the principal.

Competency based assessment

The internal examination for UGs and Mock examination for PG with internal and external examiners, has practical, viva voce and chair side discussion which help us assess the competency of the student. Clinical skills are tested by assessing the students work on competency evaluation form.

Self Assessment

- Students are given assignments
- Multiple Choice Questions tests are conducted. Students are given the answer key to assess their performance.

Work place based assessment

- The students are allowed to work in the clinics in the department, where they record the clinical findings and discuss with the faculty
- Students are sent to dental camps where the clinical work delivery is assessed.
- This helps the students to build up self confidence for treating the patients.

OSCE/OSPE

- students are exposed to OSPE/OSCE based evaluations. This encourages the students to learn the subjects in more structured and analytical methodology.

IMPROVEMENT EXAM

Students whose performance needs upgrading following the first or second internal assessment examinations are identified, and remedial exam is conducted for them, assignments are given with personal counselling to uplift the students.

UNIVERSITY EXAM

The final internal assessment marks are then tabulated. Extra weightage for the internal assessment is given based on their assignments, completion of the records, discipline and Attendance in the department. The institute identifies advanced learners through a continuous performance assessment system according to internal examination and based on this seminar presentations and projects are given to the students. Assignments and additional monitoring is carried out to the slow learners and counselled timely.

By adopting the criteria as per the direction of affiliating university, complete transparency is maintained in the internal assessment Exam. Students and faculty members are made aware of the transparency to be maintained in the system of assessment. This further enhances the transparency and rapport between faculty members and students.

There is a complete automation of the university examination. The incharge faculties of all the department ensures that the internal marks are sent to university through the university web portal for the institution. A copy of the same are kept for record purpose and for future reference. Before the final university exams, the students obtain work completion certificate for all concerned departments, which is reported to the head of the institution. Once the no-due is obtained from the office, students pay the exam fees on a given date and forms are filled and submitted. The payment of exam fees, uploading exam application forms and obtaining hall tickets are streamlined online and completely monitored by the administrative office members.

This whole process is monitored and supervised by the principal and vice-principals. The head of the institution has the complete responsibility to conduct the exam process smoothly. The proper arrangements are made for conducting exams. Faculties are assigned exam duty and the whole process is conducted meticulously and in disciplined manner. The exam hall is installed with the latest cameras and high speed internet connections. A computer and printer is also available in the hall to take copies of relevant documents and question paper.

The college appoints office staff to obtain marks results, marks card and degree certificate from the university. College have also appointed faculty representatives to university who addresses grievances related to exams. The marks card obtained from university are distributed to students and grievances related to the same addressed swiftly. The office staffs and representatives to university help the students to rectify and set right any difficulties related to university exams. The institution is hundred percent committed to provide effective and transparent mechanism to address grievances related to exam relate issues.

PROCESSES INTEGRATING IT

- The institution has a continuous evaluation system wherein the internal assessment exams are conducted in the examination hall supervised by two or

more faculty members, the examination hall is under continuous CCTV surveillance hence there is no chance for malpractice.

- A computer and printer is also available in the hall to take copies of relevant documents and question paper. A strong IT team supports the conduct of university examinations smoothly.
- For the three internal assessment examinations and computation of internal assessment marks, the college makes use of IT facilities for computing the assessment marks.
- The internal assessment marks are uploaded prior to the university examinations,
- Payment of university examination fees, download of students' Hall Tickets and question papers at the time of university examinations from the university website, valuation of answer scripts and declaration of results are all fully automated and are done through IT.

UNIVERSITY EXAMINATION REFORMS:

- The reforms in university examinations include video recording of examination halls,
- The answer sheets are then sent to the University where they are scanned.
- The evaluation is done with scanned answer scripts only through the process of digital Evaluation in the institute.

UNIVERSITY EXAMINATION GRIEVANCE REDRESSAL

The university examinations are scheduled and conducted by the university and this happens twice in an academic year. The university examinations for the BDS program are conducted in July and December of every academic year.

The rules, regulations regarding the conduct, valuation and grievances redressal systems are outlined in the university website and the institution ensures that all our students are aware of the same.

Students with grievances regarding their marks can apply to the university for photo copy of their answer scripts as Retotalling or Revaluation of answer sheets is not permitted by the university since the valuation system is so designed that it eliminates the application for retotalling or revaluation from the students.

But the students can receive the photocopy of their answer scripts on payment of the prescribed fees. Students can then discuss with their mentors regarding their

answers and get guidance to improve their performance in the subsequent examination.

POSTGRADUATE INTERNAL ASSESSMENT

Postgraduate students attend their basic science classes with regular tests incorporated to attend the year end university examination.

The institute has always maintained transparency in attendance. Students are strictly instructed to fulfil the attendance requirement given by the Affiliated University.
