CHIEF COMPLAINT

H/O. PRESENT DENTAL COMPLAINT

MEDICAL HISTORY :

PAST DENTAL HISTORY :

PERSONAL HISTORY :

- i) Deleterious habits :
Bruxism / Mouth breathing / tongue thrusting
- ii) Habits
Smoking / Alcohol / Pan chewing / Tobacco
- iii) Brushing habits :
Brush With :
Method of brushing :
Frequency :
Divcation :
Time for change of Brush :

EXTRA ORAL EXAMINATION :

- i) Symmetry of face
- ii) Lymph glands : Palpable/tender
- iii) Temporomandibular joint.
- iv) Profile :

Status :

INTRA ORAL EXAMINATION

- 1) Gingival Bleeding :- (on probing)
- 2) Colour :-
- 3) Consistency :-
- 4) Surface Texture :-
- 5) Position :-
- 6) Gingival Contour & Form :-
- 7) Gingival Enlargement :-

[illegible]

- 8) Width of attached gingiva :-
adequate - Inadequate
- 9) Tension Test :-
- 10) Suppuration :-
- 11) Halitosis :-
- 12) Frenal Attachment :-

PERIODONTAL STATUS :

[illegible]

- i) Pathological migration :
- ii) Mucogingival problems :

PROVISIONAL DIAGNOSIS

INVESTIGATIONS :

- 1) Hematology & Other
- 2) Radiographic :-

FINAL DIAGNOSIS

ETIOLOGY - Local Factor :-

Systemic factor :-

PROGNOSIS

- i) Overall
- ii) Individual

TENTATIVE TREATMENT PLAN :

Emergency treatment (if any)

PHASE I : (Etiotherpic Phase)

PHASE II : (Surgical phase)

PHASE III : : (Restorative phase)

PHASE IV : (Maintenance phase)
