**AL-BADAR DENTAL COLLEGE & HOSPITAL, KALABURAGI**

Affiliated to Rajiv Gandhi University of Health Sciences Bangalore &  
Recognized by Dental Council of India (New Delhi)

## DEPARTMENT OF PERIODONTICS

### OSCE/OSPE

**Objective Structured clinical Evaluation (OSCE) & Objective Structured Practical Examination (OSPE):** Students are exposed to OSCE/OSPE based evaluation. This encourages the students to learn the subjects in more structured and analytical methodology. The clinical and practical examination by above method provide a few chances for the candidate to express one's skill. A few examination station with specific instructions are provided. This includes clinical procedures, laboratory experiments, spotters (OSPE) etc. This will avoid examiner bias because both the examiner and the examinee are given specific instructions on what is to be observed at each station and marks are given accordingly.

#### Case Based Evaluation/ Case Scenario

- The students are allowed to work in the clinics in the department where they record the clinical findings and discuss with the faculty. This helps the students to build up self-confidence for treating the patients.
- Apart from this case-based assessment is done which measures the extent to which a student is able to define, analyse, solve and evaluate the problems described in the cases.
- A case scenario is given to the students and based on the knowledge they are able to diagnose the disease, give the differential diagnosis and prognosis and write the treatment plan, for which the marks are given.
