

DEPARTMENT OF PUBLIC HEALTH DENTISTRY

Training Report on “Bio-medical Waste Management” -2022-23

(1/02/2023)

The training program on ‘**Biomedical waste management-2016**’ has been organized by Department of Public Health Dentistry, on 29/12/2022. The training was conducted undergraduate students. This session was coordinated by Dr. Sangeeta M, where she covered extensively, different aspects of Biomedical waste management act 2016. The training appended Segregation of BMW, Transport of BMW and Treatment of BMW along with Demonstration on colour coded segregation of waste. Followed by training program, there was a interactive session where many queries were sorted out. Finally the programme concluded with national anthem.
