DEPARTMENT OF PAEDIATRIC AND PREVENTIVE DENTISTRY

Competency evaluation form for restoration

Student Name: Tahmeena Khatoon Date: 02/12/22

Patient Name: Zikra Tooth number and surface: 63 (Buccal), 26 (Occlusal)

Type of restoration: GIC Restoration 74, 675 (Occlusal)

Case selection: level of difficulty of the procedure

3

Preparedness: presents with proper armamentarium to begin and complete the procedure

3

Knowledge of procedure: caries risk assessment along with patient positioning, lighting, instrumentation, tissue manipulation, answers to questions about anatomical landmarks, pathologic and non-pathologic variations of normal

5

Infection control measures followed throughout the procedure

3

Patient management: communicates at appropriate age level, anticipates and responds to behavior problems, communicates with parents, gives postoperative instructions

4

Caries excavation / removal: removes caries appropriately

4

Tooth preparation: prepares tooth within guidelines without assistance

3

Final restoration: provides pulpal protection while needed, places restoration, cleans debris from mouth, adjusts occlusion

4

Professionalism: student demonstrates professional demeanor and responsibility for patient care

3

Recall: Renders appropriate post-op instructions plans for recall

3

Scoring criteria: 0- not done, 1-poor, 2-average, 3-good, 4-best, 5-excellent

Grading: A+: 91-100%, A: 81-90%, B+: 71-80%, B: 61-70%, C+: 51-60%, C: 41-50%
