PRACTICALS/CLINICALS/FIELD PROGRAMMES IN PUBLIC HEALTH DENTISTRY

These exercises designed to help the student in IV year:

1. To Understand the community aspects of dentistry
2. To take up leadership role in solving community oral health programme
3. To gain hands on experience on research methodology.

Exercises: IV BDS

Sl. No.	Topic	Hours of study
1.	Short term research project: Epidemiology & Advocacy Purpose: Apply the theory and practice of epidemiology, planning and evaluation, statistics to dental public health. Depending on the topic chosen student can incorporate <ul style="list-style-type: none">• Collection of statistical data (demographic) on population in India, birth rates, morbidity and mortality, literacy, per capita income• Incidence and prevalence of common oral diseases like dental caries, periodontal disease, oral cancer, fluorosis at national and international levels.• Oral health status assessment of the community using indices and WHO basic oral health survey methods collection.	30 hours
2.	Field visits: <ul style="list-style-type: none">• Visit to primary health centre-to acquaint with activities and primary health care delivery• Visit to water purification plant/public health laboratory/ centre for treatment of waste and sewage water• Visit to institution for the care of handicapped, physically, mentally, or medically compromised patients	20 hours
3.	Preventive dentistry: <ul style="list-style-type: none">• Including case history, recording of indices, application of pit and fissure sealants, fluoride gel application procedure, A. R. T.	40 hours

Note: Recording of oral health assessment using indices and WHO basic oral health survey methods should be in context of how information collected will be used or utilised. Therefore it is desirable for this exercise to be part of short term research project and not merely for recording.
